

Environmental Policy Statement

Reynolds Collcutt Furniture Ltd is a furniture and joinery manufacturing company supplying bespoke solutions. We recognise that our activities have an impact on the environment due to the use of raw materials, the waste and emissions we produce and the energy we use.

Management:

- We endeavor to minimise the environmental impact of our operations and to reduce the effects of noise, dust, disturbance and inconvenience. To do this we have developed management processes and operational procedures with the environment in mind.
- We also implement a continual improvement process by assessing and monitoring the company's environmental performance against specific objectives and targets relevant to its business's activities.
- We encourage activities that enhance the company's environmental performance with both sub contractors and suppliers.

Materials:

- Reynolds Collcutt Furniture Ltd strives to be environmentally and socially responsible; consequently we are committed to supplying products manufactured from timber from legal and well-managed forest sources.
- We acknowledge that the only way to ensure timber is legal and sustainable is to purchase it from independently certified sources. The certification scheme run by both the Forestry Stewardship Council (FSC) and the Program for the endorsement of forestry commission (PEFC) are the most creditable global forest certification schemes offering independent verification of sustainable forests.
- We are committed to purchasing the majority of timbers and timber products we use from either FSC or PEFC certified sources.

Energy:

- At Reynolds Collcutt we have an investment program in new machines. These machines will improve the productivity and are also much more energy efficient.
- The Reynolds Collcutt factory is heated by a wood burner which uses the waste timber and saw dust, thus a renewable energy supply. By using this we are helping to reduce the amount of fossil fuels that we use.

It is the responsibility of all Reynolds Collcutt Furniture Ltd employees to support and apply the company environmental policy and procedures that relate to their activities.

Appropriate support and training will be given to staff to ensure that they are able to fulfill the commitments given in this policy.
